

WESTWAARD

The future of your farm starts with a healthy calf...

Milk Pasteurizers

Bottle Washers

Nipple Washers

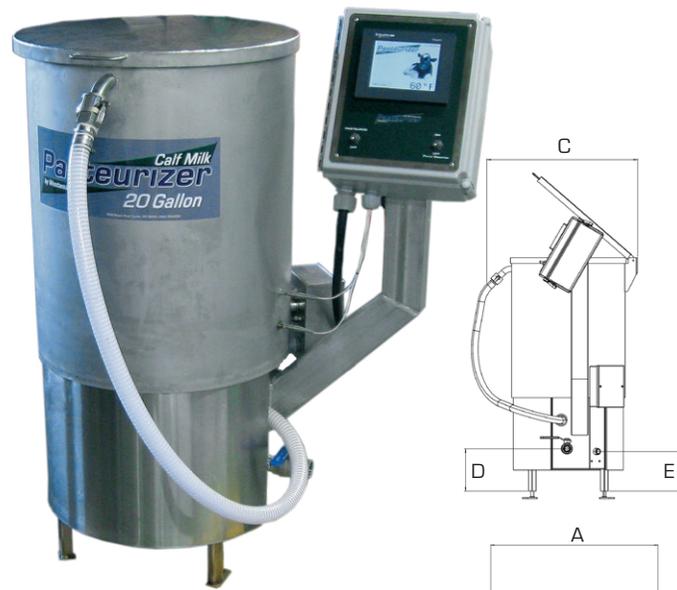

20 GALLON CAPACITY

Part # WP20G

The 20 gallon pasteurizer is a smaller size pasteurizer that is a better fit for smaller dairies.

- Pump Agitation and Dispense System
- Automated Pasteurization Cycles
- Re-Heat & Pre-Cool Options Standard
- Programs for Colostrum Pasteurization and Colostrum Thaw for Frozen Bags
- Manual Wash
- Large PLC Screen Provides Information Throughout Cycles
- Electric Heating
- 30 Amp 240VAC 1 Phase 4-Wire

40 OR 60 OR 90 GALLON CAPACITY

40 Gallon Part # WP40G

60 Gallon Part # WP60G

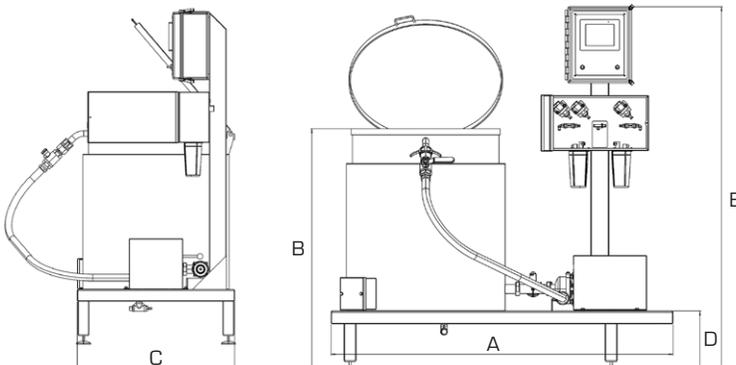

90 Gallon Part # WP90G

The 40, 60 OR 90 gallon pasteurizer is a medium size pasteurizer that is a better fit for the midsize dairy.

- Pump Agitation and Dispense System
- Automated Pasteurization Cycles
- Re-Heat & Pre-Cool Options Standard
- Programs for Colostrum Pasteurization and Colostrum
- Thaw for Frozen Bags
- Automatic C.I.P. System
- Optional Peristaltic Chemical Pump
- Large PLC Screen Provides Information Throughout Cycles
- Electric Heating
- 40 Gallon - 40 Amp 240VAC 1 Phase 4-Wire
- 60 Gallon - 60 Amp 240VAC 1 Phase 4-Wire
- 90 Gallon - 80 Amp 240VAC 1 Phase 4-Wire

120 OR 150 OR 200 OR 250 GALLON CAPACITY

120 Gallon Part # WP120G

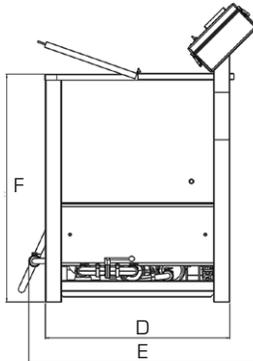

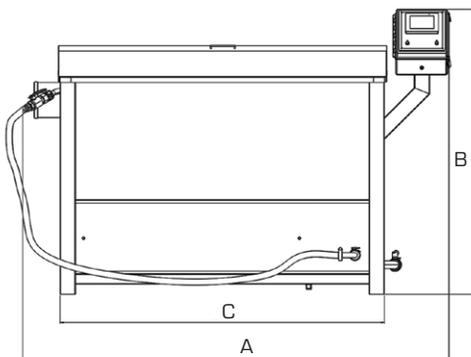

150 Gallon Part # WP150G

200 Gallon Part # WP200G

250 Gallon Part # WP250G

The 120, 150, 200, OR 250 gallon pasteurizer is a larger sized pasteurizer that is a better fit for the midsize to large dairy.

- Pump Agitation and Dispense System
- Automated Pasteurization Cycles
- Re-Heat & Pre-Cool Options Standard
- Automatic C.I.P. System
- Peristaltic Chemical Pump
- Large PLC Screen Provides Information Throughout Cycles
- Requires Integration with Hot Water Heater for Heating Cycle
- 20 Amp 240VAC 1 Phase 4-Wire

Spray Ball Attachment

Single Dispense Nozzle

Agitation Tube

Multi-Dispense Fork

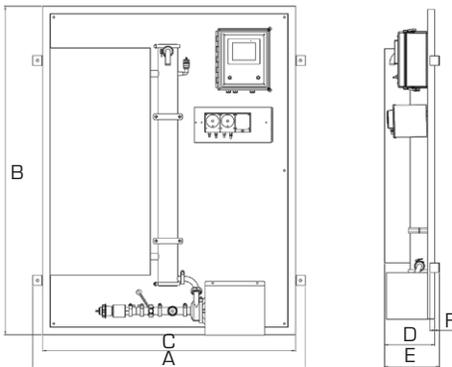

PASTEURIZER CONTROL CENTER ASSEMBLY

Part # WPLGCC

Part # WPLGCCHC

The Control Center Assembly pasteurizers allow integration to large agitated batch tank. They do all the tie-ins between tank and boilers or hot water heater. Typically used for connection with 300-800 gallon batch tank.

- Automatic Wash Cycle with Peristaltic Chemical Pump
- Includes PLC Control Box
- Milk Circulation/Unload Pump
- Hot Water Circulation Pump
- Water Control Solenoids
- Heat/Cool Exchanger
- Standard Model - 20 Amp 240VAC 1 Phase 4-Wire
- High Capacity Model - 30 Amp 240VAC 1 Phase 4-Wire

Pasteurizer Control Center Assembly

Model #	Pasteurizer Capacity
WPLGCC	Up to 450 Gallons
WPLGCCHC	Up to 800 Gallons

WPLGCC	55	66 1/2	51	10 3/4	11 3/4	2
WPLGCCHC	55	66 1/2	51	10 3/4	11 3/4	2

PLC Control Box

With our in-house custom-built PLC panels, controlling your pasteurizer or bottle washer is easier than ever! Our touch screen control allows full set-ability of all functions from wash cycles to re-heat and pre-cool pasteurization cycles. Offering the reliability and functionality of the industrial PLC control system.

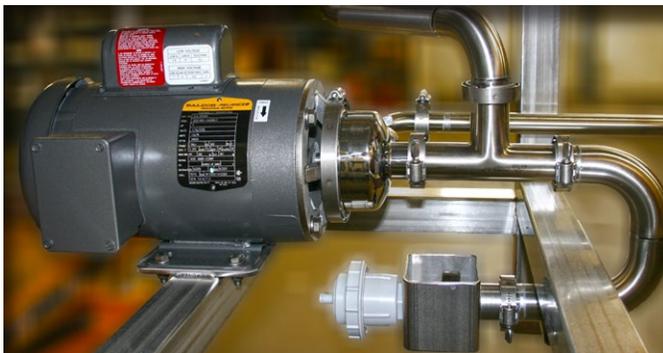

Bottle Washer

Westwaard also manufactures a full line of bottle washers. Offering models that combine with the versatility and flexibility of the Westwaard Pasteurizer, as well as standalone units.

While great effort is put into preparing milk the right way to feed calves, it is important that the sanitation of milk bottles is maintained to a high standard as well.

With our years of equipment and automation experience, our goal is to give you the tools to raise the healthiest calves possible, while allowing you to do it in the most efficient and most economical method available.

All stainless steel pump assembly for easy service and excellent durability.

Non-electric auto drain assembly.

Individual valve zone control for washing at less than full capacity.

Cone spray nozzles for clean spray and excellent bottle coverage.

The well-crafted milking tools of yesterday have evolved into the exceedingly technical components of today's highly computerized dairy operations ... but the primary concerns of every farm are still the same - the well-being of their cows and the efficiency of their farms.

DariTech understands that these important aspects of the dairy farm can be enhanced with well-planned and carefully manufactured components. We maintain a talented in-house fabrication department that is always geared up to provide those unique solutions that aren't available "off the shelf."

Nipple Washer

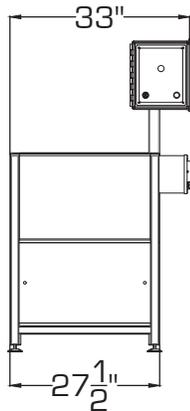

Westwaard is proud to introduce a full new line of nipple washers. With three different models, this stand-alone unit sanitizes and disinfects the calf bottle nipples. Capacities from 150 nipples to 600 nipples.

With our years of equipment and automation experience, our goal is to give you the tools to raise the healthiest calves possible, while allowing you to do it in the most efficient and most economical method available.
